

The Sauk River Watershed District needs you to be part of our **Citizen Advisory Committee!**

The Citizen Advisory Committee is a **citizen-based** group that provides critical input to the Board of Managers on water quality decisions that affect residents and their communities. The committee is the **local voice** to raise issues of concerns, and also to help develop solutions for water quality issues for their neighbors and communities. This includes financial concerns and decisions!

If you have any questions about the Citizen Advisory Committee or would like to be part of the committee, you can find more info and applications at the SRWD website under About Us. If you scroll to the bottom of the page, the CAC documents are listed.

www.srwdmn.org/about-us/

Or you can email Adam at adam@srwdmn.org. The next round of applications is due by January 15th.
