

Little Osakis (Todd County)

OVERVIEW

Little Osakis Lake is a small, lightly developed basin which is connected to Lake Osakis by a shallow, non-navigable stream. There is no public access to Little Osakis Lake. The Head of the Lakes Resort on Lake Osakis owns a boat ramp that can be used to access Little Osakis via a small channel under Highway 10. However, only small boats can maneuver under this bridge. The lake supports an abundant and diverse aquatic plant community. Most of the shoreline is fringed with emergent vegetation and submergent vegetation is dense in most shallow areas. These plants provide spawning habitat and nursery areas for many gamefish.
