

# Long - SRCL (Stearns County)

## OVERVIEW

Long Lake is located in south central Stearns County, north of Eden Valley. The 460 acre lake joins the Sauk River Chain of Lakes by a navigable channel into Horseshoe Lake and a separate state owned public access exists on the south west side of the lake. In 2018, a fisheries survey was conducted to update fisheries data last sampled in 2013.

The Long Lake watershed is approximately 33,000 acres and is influenced by the Eden, Mud, and North Browns watersheds, which drain into Long Lake. Average water clarity during summer is typically four feet or less. The aquatic plant community is typical of a eutrophic lake with submersed plants consisting of Coontail, curly leaf pondweed and sago pondweed. Emergent plants consisted of cattail species and White waterlily.
