

# Partners WMA

## OVERVIEW

### The Partners Wildlife Management Area (WMA)

sits 3 miles NE of Paynesville. Most of this nearly 120 acre WMA is composed of lowland grass and aspen/willow brushland.

**Some original remnant prairie occurs on the area.**

Future management may include prairie conversion and maintaining winter cover quality as this is a core wintering area for deer and pheasants. Corn food plots exist in surrounding areas.

Partners WMA provides the opportunity for a variety of outdoor activities. While visiting WMAs, respect private property boundaries and ask for permission before going onto private lands.

**Game Species:** Deer, Small Game, Pheasants

**Area:** 120 acres

**Perimeter:** 1.99 miles

**County:** Stearns

**Near:** Paynesville

**Location:** 45.405441, -94.685347
