

Largemouth Bass

General Description: Two-part connected dorsal fin (spiny in front and soft in the back), shaped like a laterally-flattened football.

Color: A dark green back, grayish-white belly, and black lateral stripe from gill plate to the tail.

Length: 10 –15 inches.

Weight: 2 –4 pounds.

Habitat: Shallow, fertile lakes and river backwaters with ample aquatic vegetation. Look for them near submerged logs or stumps.

Food: Aquatic insects, crayfish, other small fish species such as sunfish,
