## American Bullfrog

**General Description:** Largest frog in Minnesota both as adult and tadpole. Distinct from other true frogs with no dorsolateral fold.

**Color:** Green and brown with adult males usually having a yellow throat. Bellies can be white with grey or yellow.

**Length:** 3.5 - 8 inches.

**Habitat:** Prefers permanent bodies of water.

**Food:** Small mammals, birds, reptiles, fish and even other frogs - anything that will fit in their mouth.
