

# Noah Jensen

## Seasonal Technician

### **Where are you from and where do you live?**

I was born and raised in Sauk Rapids, Minnesota.

### **What inspired you to get into your field?**

Growing up, my family was always into camping, hiking, hunting, fishing, etc. My passion for the outdoors has led me to desire protecting our natural resources so that future generations will be able to experience our natural resources as I have been able to.

### **What is your education background ?**

I graduated this May from Saint John's University with a bachelor of arts degree in Environmental Studies with a minor in communication.

### **Where is your favorite place to be?**

My favorite place to be is in the woods on an early morning. I love hearing and watching the world wake up. From the birds and other animals to the sun, it brings me great joy and peace.

### **What is something everyone can do to improve water quality?**

One thing everyone can do to improve water quality is plant native vegetation in their yards. Native vegetation offers great habitat for important pollinators and requires less maintenance and watering than traditional lawns

### **What is a fun fact about yourself?**

A fun fact about me is I know how to sail!
